

Chelsea Centre for Creative Industries

*Supporting creative
minds find their voice*

Our Chelsea Centre for Creative Industries is one of the most exciting places to study for a career booming with fresh ideas, passion and innovation.

We are supporting creatives to build and nurture the most up-to-date and high demand skills in their career of choice. You'll have the choice to study a wide range of interesting and exciting courses in the creative arts. There is an extensive list to choose from such as film and media, esports and gaming, fine art, media design, fashion, photography and 3D design.

The joy of Chelsea is that both our students and staff are united in one thing – the passion for creativity.

Whilst encouraging each of our students creative abilities, we also support your development of transferable skills, so that by the time you finish your course you are ready and prepared for the real world of work. You will enjoy being taught by tutors who share the same passion as you do, and whose knowledge and skills you will greatly benefit from. You will be able to take advantage of all of this whilst being supported entirely during the course of your studies.

We are committed to curating moments of collaboration, both within and outside the college, where you will find opportunities to sharpen your skills in working and communicating with others. You will learn the skills necessary to be successful, what ever creative route you choose, and we will help you foster key relationships along the way – whether that is working with like minded students or our passionate and supportive tutors.

Three Reasons to Choose the Chelsea Centre for Creative Industries

1. Our Expertise

We are a dedicated space founded on the belief that real world industry skills are born of an approach that is highly collaborative, where different creative disciplines overlap and connect daily. You will learn how to adapt and collaborate effectively in the creative realm and this is something we are proud of.

You will have access to some of the best creative facilities in London and to tutors whose experience is rooted in the creative industries. Not only this, but you will have the opportunity to make great connections and relationships with those like-minded individuals who share the same goals and passions that you do.

2. Our Reputation

We have a long history teaching creative, fashion and arts courses at our centres in central London. Our DNA is all about social justice. We were founded by a Suffragette and an abolitionist. We know the world of work should mean something for each individual and each student. As a result, we believe in changing the world for the better through a skillset developed through passion and collaboration. This lies at the heart of all we do, and the ethos we invoke in our students whilst they study with us.

3. Our Location

We are located in the heart of creative London, just off the King's Road in Chelsea. Surrounded by art galleries and fashion houses and close to the Chelsea Design Quarter, your creativity will be inspired with each step you take. You will be surrounded by the diverse culture and arts, which will fuel your passion and feed your imagination on a daily basis.
